RULING ON ENTITLEMENT¹

On October 13, 2020, Petitioner filed a petition for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*² (the “Vaccine Act”). Petitioner alleges that T.S., his minor child, suffered intussusception as a result of a Rotavirus administered on October 18, 2017. Petition at 1. The case was assigned to the Special Processing Unit of the Office of Special Masters.

On March 29, 2021, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent’s Rule 4(c) Report at

If, upon review, I agree that the identified material fits within this definition, I will redact such material from public access.

² National Childhood Vaccine Injury Act of 1986, Pub. L. No. 99-660, 100 Stat. 3755. Hereinafter, for ease of citation, all “§” references to the Vaccine Act will be to the pertinent subparagraph of 42 U.S.C. § 300aa (2012).

1. Specifically, Respondent concludes that Petitioner has satisfied the criteria set forth in the Vaccine Injury Table ("Table") and the Qualifications and Aids to Interpretation for a Rotavirus/Intussusception Table injury. *Id.* at 5. Respondent further agrees that T.S.'s intussusception "resulted in inpatient hospitalization and surgical intervention." *Id.*

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
